

April is Green Month! How to Make Your Body, Home, and Workplace Healthy, Clean, and Green!

Every day our bodies are bombarded with millions of toxins from genetically modified foods, polluted air and water, prescription drugs, parasites, heavy metals, radiation, pesticides and hormone-injected meats and dairy. Over 90% of these toxins enter through our intestinal tracts! These toxins suppress the body's self-healing mechanism, causing sickness, low energy levels, anxiety, weight gain, and many other negative health conditions.

Your listeners will be riveted when **Dr. Edward Group** exposes the hidden truths about the symptoms of disease and how our diets, drinks, drugs and toxic living environments are ravaging our systems. Group will discuss:

- How disease starts and health begins in the colon.
- Why your home or office may have high levels of toxic contaminants.
- Why 90% of the population may be infested with immune suppressing parasites.
- How to cleanse the body using natural, easy and quick methods.
- How to create a green living and work environment and a green, toxin-free body.

PRODUCERS: Have your listener's take Group's easy Colon Health Test. Give away 10 free copies of the book on your show!

CREDENTIALS: Dr. Edward Group is a doctor of chiropractic, a naturopathic doctor, and a diplomate of the American Clinical Board of Nutrition. He founded Global Healing Center in 1998 to teach people how to heal themselves, prevent disease, and improve their health and well being. Dr. Group is a "Living Green" Consultant and a recognized international speaker, who has appeared with Deepak Chopra and other noted alternative medicine practitioners. He is the author of *HEALTH BEGINS IN THE COLON*.
